SUMMARY

B.Tech Computer Science graduate with experience in software development, Artificial Intelligence, business operations, and product coordination. Skilled in Python, SQL, web technologies, AI solutions, business analysis, and project execution. Experienced in developing technology solutions while contributing to product enhancements, stakeholder coordination, business development, and cross-functional startup operations.

EXPERIENCE

Management Trainee – Operations & Technology at Zytra Tech Solutions Pvt. Ltd. *June 2026 – Present*

- Contributed to cross-functional business operations, technology initiatives, project delivery, and organizational management within a technology startup.
- Enhanced the internal AI Governance Portal by introducing features, identifying bugs, coordinating fixes, and supporting product testing and validation.
- Researched and identified new risks across agentic and non-agentic AI systems, mapped unmapped prompts to relevant risk patterns, and addressed gaps in AI Risk Atlas classification.
- Coordinated university collaborations and recruitment initiatives, including company representation and hiring-related activities at SRM University-AP.
- Managed corporate registrations, company listings, conference participation, and external business engagement initiatives.
- Coordinated company registration at MEDHA Towers, Amaravati Quantum Valley (AQV), and secured dedicated workspace allocation for company operations.
- Created promotional videos and managed content preparation and publication through the company's official YouTube channel.
- Supported technical documentation, business proposals, research, client engagements, and coordination across product, marketing, and business development functions.

SKILLS

Programming: Python, SQL
Web Development: HTML, CSS, JavaScript, Django, FastAPI
AI & Data Science: NumPy, Pandas, Machine Learning, Deep Learning, Generative AI, RAG, LLMs, AI Agents, Model Evaluation, Scikit-learn
Business & Operations: Business Analysis, Business Development, Operations Management, Process Optimization, Stakeholder Management
Product & Project Management: Requirements Analysis, Product Coordination, Project Execution, Testing, Documentation
Tools & Databases: PostgreSQL, Git, GitHub, MS Excel, PowerPoint, Jupyter Notebook, Google Colab
Languages: English, Telugu, Hindi, Tamil

PROJECTS

ORVEN – Enterprise AI Validation Platform GitHub Repo

- Developed an enterprise AI validation platform featuring AI asset management, RAG-based document retrieval, LLM evaluation, experiment tracking, and automated model performance assessment for AI governance.

ORVEN AI – Enterprise AI Assistant GitHub Repo

- Developed a full-stack AI assistant integrating conversational AI, research assistance, code review, image generation, resume analysis, and email assistance using Cloudflare Workers AI and Next.js.

Android Malware Detection – Published Research GitHub Repo

- Researched Android malware detection using static and dynamic analysis and developed models including KNN, Naive Bayes, Decision Tree, Random Forest, and 1D-CNN; presented the research at ICICST 2026, NIT Jalandhar.

Web-Based Health Diagnosis System GitHub Repo

- Developed an AI-based health diagnosis application using CNN and ontology techniques, with a Java backend and MySQL database for data management.

Water Quality Prediction – Machine Learning GitHub Repo

- Analyzed environmental datasets and developed predictive models using Random Forest, Logistic Regression, and

KNN to assess water quality and identify environmental patterns.

Photography Portfolio – Web Platform GitHub Repo

- Designed and deployed a responsive full-stack photography website using Flask, Python, HTML, CSS, and JavaScript, featuring interactive galleries, cloud image storage, and an administrative dashboard.

EDUCATION

S.R.M. Institute of Science and Technology 2022 – 2026
B.Tech in Computer Science and Engineering (CGPA: 8.39)

Sri Chaitanya Junior College 2020 – 2022
Intermediate (MPC)

Sri Somanatha Greenfield Public School 2019 – 2020
CBSE (Class X)

CERTIFICATIONS

- Machine Learning Specialization – DeepLearning.AI (Coursera)
- Generative AI with Large Language Models – DeepLearning.AI (Coursera)
- Oracle Cloud Infrastructure (OCI) Foundations – Oracle (2025)

ACADEMIC SERVICE & LEADERSHIP

Reviewer – ICICST 2026, NIT Jalandhar: Reviewed research papers in Artificial Intelligence and Machine Learning.

Reviewer – CE2CT 2026, Graphic Era Hill University: Recognized as a reviewer at the Second International Conference on Advances in Computer Science, Electrical, Electronics, and Communication Technologies.

Author & Presenter – ICICST 2026: Published and presented research on Android Malware Detection.

ORM Committee Head – AARUUSH: Led committee activities and coordinated team responsibilities.

Discipline Committee Head – DSA: Managed discipline-related activities and supported event coordination.

AREAS OF INTEREST

- Business Strategy and Business Analytics
- Product Management and Product Development
- Operations and Project Management
- Entrepreneurship and Startup Management
- AI Governance, Generative AI, and Emerging Technologies

INTERESTS

- Photography and Visual Content Creation
- Travel and Exploring New Places
- Technology Trends and Emerging Innovations
- Business Strategy and Startup Ecosystems
- Research and Continuous Learning

ADDITIONAL ACTIVITIES

- University Collaboration and Recruitment Initiatives
- Corporate Networking and Conference Engagements
- Promotional Content Creation and Digital Media
- Startup and Entrepreneurship Initiatives
- AI Risk Research and Governance Activities
